

is a part of **CMB GRPOUP**

Our main areas of operation include

- Design and construction of private houses
- Design and construction of public and multi-apartment buildings
- Production of fully equipped wooden modules
- Development and sale of construction projects
- Production of roof connector systems
- Export of houses, modules, and wooden structures.

Thanks to our timber construction manufacturing facility, we are capable of producing high-quality wooden structures for both standardized and custom projects. We ensure our clients receive top-quality execution and timely delivery

Our office

Ventspils street 48, Riga
