SIGULDAS BŪVMEISTARS

JSC “Siguldas Būvmeistars”

Dolomite quarry “Tūrkalne”

- We produce 19 certified dolomite products and mixtures of different fractions
- We produce an average of 450,000 tons of products per year
- In our laboratory, we conduct up to 700 tests per year
- Our production is CE marked
- The production process is controlled according to the 2+ system
- There are 35 employees working in the quarry sector
- The company holds an ISO 14001:2015 certificate

- We have been mining dolomite since 1988
- We collaborate with the largest Latvian road construction and maintenance companies
- The total reserves of explored dolomite in the deposit exceed 7 million cubic meters
- We have successfully recultivated the developed deposits over an area of more than 30 hectares
